OBJECTIVE

Looking for a challenging role in a reputable organization to utilize my technical, database, and management skills for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

SKILLS

- Good understanding of HTML5, CSS3 and emerging web technologies.
- Working knowledge of JavaScript/jQuery library.
- Experience with Django for backend.
- Experience with bootstrap for frontend.
- Familiarity with database systems (PostgreSQL).
- Good understanding of Python and C++.

PERSONAL PROJECTS

1. My Portfolio Website
 - This website shows all my latest artworks and my personalized music playlist.
 - It also has a blog app where I write blogs.
 - It also has links to my various social accounts like LinkedIn, Instagram etc.
2. Notes For Freshers (Ongoing)
 - This website will have class notes for freshers of my college so that they can get a head start in their academics.
 - This website will also contain a section where students can upload their notes to help others.
